

Introduction to Lean Skills

Work Based Lean Yellow Belt Programme

A University of Limerick certified programme, the Lean Yellow Belt provides learners with a comprehensive overview of Lean Six Sigma concepts, as well as a guided and practical application of Lean tools & techniques using the standard A3 methodology.

Why this Programme?

Learn from Leaders - Our Lean Six Sigma training programmes are developed with the support of Lean experts who have extensive industry experience in leading Lean Projects.

Flexible Blended Learning – Using our online learning platform, learners can study ‘anytime and anywhere’, learning at their own pace with minimum disruption to work schedules. Participants will also have the option to attend orientation and contact days.

University Certification - Participants that successfully complete the module will receive a *University accredited Level 8 Certificate in Lean Six Sigma*, which can be used as a steppingstone towards further education. Professionals on this programme will formally register with the University of Limerick, providing them with full student access.

Who is this Programme for?

This programme is aimed at individuals looking to acquire or develop lean six sigma skills in order to embark on, or participate in, a Lean Business improvement initiative:

Individual learners looking to participate in professional development and gain Lean Certification

Departmental Managers or Process Owners tasked with developing and championing Lean projects

Senior Management looking to gain an understanding of Lean to provide a more supportive role
